Gluteus Medius Repair Hip Brace Instructions

Hip Gluteus Medius/Minimus Repair Hip Brace Instructions

- 1. The hip brace is to help protect the repaired tendons done on the hip.
- 2. The brace is set to:
 - a. 30° to 90° of flexion to **prevent extension** of the hip.
 - b. Neutral rotation to prevent excessive internal/external rotation of the hip.
 - c. 15° abduction to reduce tension on the repair.
- 3. The brace is used following surgery. The following is your duration of brace treatment:
 - a. \square 6 weeks
- 4. The brace is to be worn at all times including while sleeping.
- 5. If there are problems with the brace, please contact our brace supplier, BlueGrass Bracing, at the following number:
 - a. 866-661-5500
