CYNOSURE[®]

Intended for distribution in US only.

† These before and after photographs are of a patient treated with Cynosure's Elite family devices, not the Elite iQ device advertised herein. The Elite family devices have the same/similar capabilities as the Elite iQ device and so while individual results vary, similar results are expected.

Like all medical procedures, not all patients are suitable for the treatment. A qualified practitioner is solely responsible for evaluating each subject's suitability to undergo treatment and for informing those being treated about any risks involved with the treatment, pre-and postoperative care, and any other relevant information. Individual results may vary and are not guaranteed.

Tackle it all, with
custom treatments
designed for you.

Safely treat all skin types,
anywhere on the body.

ELITE iQ[™]
by CYNOSURE[®]

- Hair removal • Wrinkles • Rosacea
- Hyperpigmentation • Veins • Razor Bumps

Personalized Aesthetic Treatments Because Everyone is *Different*✓

The Elite iQ device can address a wide variety of common skin concerns. Treatments are quick, customized, and provide great results!

Permanent hair reduction

Skin revitalization

Facial wrinkles

Leg veins

Facial veins

Sun damage

Razor Bumps

Rosacea

**Safely treat all skin types,
anywhere on the body.**

How it Works: The Elite iQ device uses Skintel®, the world's first melanin reader, to safely treat patients. Developed with top dermatologists, this technology allows practitioners to customize treatments by finding the perfect setting for every skin type and hair texture.

Frequently Asked Questions

Is this treatment right for me?

The Elite iQ device can be safely used on all skin types and anywhere on the body including face, back, chest, arms, underarms, bikini area and legs.

How many treatments will I need?

The number of treatments and treatment times will vary, depending on the size of the area being treated. Each treatment typically takes less than 30 minutes. Speak to your provider for a consultation to discuss treatment areas and number of treatments required.

Does it hurt?

Treatments are virtually painless, using advanced air cooling causing it to be more comfortable.

Is there any downtime?

Typically, there is little to no downtime, and you can quickly return to your daily activities following the procedure. Experience may vary by patient; ask your provider what you can expect.
