

### **Supplement Disclosure for E-Dispensaries**

“As a convenience for our patients, our office has partnered with Doctors Supplement Store, and Fullscripts, virtual supplement dispensaries, to manage supplement inventory and delivery on our behalf. We are able to provide our community a discount to you of 15% from what you would pay for the same products as a retail customer. We value and trust Doctors Supplement Store and or Fullscripts to provide only medical grade supplements through their dispensary. However, you are under no obligation to purchase these products from us or our partner; you may purchase the same products elsewhere; and your quality of care in our office will not be affected by your decision to purchase or not purchase products from our office.”
